SUMMARY

Detail-oriented Software Testing Professional with strong knowledge of **Manual Testing**, **Software Quality Assurance (QA)**, **SDLC**, **STLC**, **Test Case Design**, **Defect Life Cycle**, **Bug Reporting**, and **Regression Testing**. Hands-on project experience in **Automation Testing** using **Selenium WebDriver**, **Java**, **TestNG**, **Maven**, and **Page Object Model (POM)**.

Skilled in **Functional Testing**, **Smoke Testing**, **Sanity Testing**, **Regression Testing**, **UI Testing**, **Database Testing**, and **Defect Tracking** using **JIRA**. Proficient in **MySQL**, **Git**, and **AI-assisted Software Testing** concepts with a strong analytical mindset and passion for delivering high-quality software products in Agile environments.

SKILLS

Manual Testing

Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Exploratory Testing, UI Testing, Compatibility Testing, Database Testing, User Acceptance Testing (UAT)

Software Testing Lifecycle

Software Development Life Cycle (SDLC), Software Testing Life Cycle (STLC), Test Planning, Test Case Design, Test Execution, Defect Life Cycle, Bug Reporting, Requirement Analysis

Automation Testing

Selenium WebDriver, Test Automation, Automation Frameworks, Page Object Model (POM), TestNG, Maven, Automation Script Development

Quality Assurance

Defect Tracking, Quality Assurance, Root Cause Analysis, Test Documentation, Agile Testing, Software Validation, Quality Improvement

Professional Skills

Analytical Thinking, Problem Solving, Attention to Detail, Communication Skills, Team Collaboration, Quick Learning, Time Management

TECHNICAL SKILLS

Automation Tools: Selenium WebDriver, TestNG

Programming Languages: Java (Basic)

Database: MySQL

Bug Tracking & Project Management: JIRA

Build & Version Control: Maven, Git

Testing Concepts: Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Database Testing

PROJECT

Polymer Shop – E-Commerce Website Testing

Tools: Selenium WebDriver, Java, TestNG, Maven, POM, Git, JIRA

- **Designed and Executed Comprehensive Test Cases** covering **Home**, **Product Listing**, **Product Details**, **Shopping Cart**, and **Checkout Modules** to validate end-to-end application functionality.
- **Developed Selenium Automation Scripts** using **Java**, **Page Object Model (POM)**, and **TestNG**, improving automation coverage and test execution efficiency.
- **Performed Functional, Regression, Smoke, and Sanity Testing** to validate application quality across multiple business scenarios.
- **Identified, Logged, and Tracked Software Defects** using **JIRA**.
- **Managed Test Execution** using **Maven** and **Git**, following structured version control and build management practices.
- **Validated User Workflows** across critical e-commerce functionalities, ensuring application stability, usability, and business requirement compliance.

CERTIFICATION

AI-Powered Software Testing

Illinois Institute of Technology | NSDC |Entri Elevate · Kerala, India · 2026

- Learned **Software Development Life Cycle (SDLC)** and **Software Testing Life Cycle (STLC)**
 - Developed knowledge in **Test Case Design**, **Defect Reporting**, **Automation Testing**, and **AI-assisted Software Testing**
-

EDUCATION

Bachelor of Technology (B.Tech)- Computer Science & Engineering

Mg university · Kerala, India · 2014

KEY PROJECT HIGHLIGHTS

Successfully automated end-to-end testing of an E-Commerce web application

Developed reusable Selenium automation scripts using Page Object Model.

Executed manual and automation testing across multiple business modules.

Worked with JIRA for defect tracking and lifecycle management.

Applied Agile testing concepts throughout the testing process.
